

# GIVING THE TIMBER INDUSTRY A SOLID BASE.

TimberBase™ is the lumber industry's most advanced sales platform, connecting thousands of buyers and sellers worldwide.

## HOW EVERYONE GETS ON BOARD.

TimberBase is where buyers and sellers meet. Uniting global markets and automating international transactions, our digital platform brings procurement and logistics to the highest possible level. The integrated features are intuitive and reliable, and everyone benefits with immediate, real-time market opportunities. Quickly and easily create standardized requests, customize bidding, and capitalize on package deals. TimberBase users enjoy complete transparency over every step of the buying and selling process.

# NEVER GET LOST IN THE WOODS.

No matter how great a tool is, to achieve worldwide adoption it must be easy for anyone to use. The TimberBase digital platform streamlines the buying and selling process through an intuitive interface that is supported by a team of multi-lingual experts that are standing by 24/7. TimberBase has

partnerships with mills worldwide, with the ability to ship directly to buyers anywhere, anytime. The process is completely visible and trackable, and this transparency minimizes delays and avoids surprises. Streamline your administrative processes and automate your sales with TimberBase.

# OUR STRENGTH COMES FROM OUR ROOTS.

With a truly global reach, TimberBase, backed by UFP Industries, can leverage relationships with customers and mills to bring more buyers and sellers together. Our size and scope allow us to offer a high volume of wood products in a wide range of

grades, species, and dimensions. No matter your location, size, or product interests, TimberBase is the go-to source for trusted, reliable, global transactions in this ever-evolving world of wood products.
